

Stephen Myburgh Designs

"Fusing organic forms and skilled craftsmanship to create exquisite garden swings; each a unique art installation in its own right."

This is our passion and purpose; expressed in the soulful designs you see on these pages.

We resource only previously recycled metals to create each swing. Then, in the intense fire of creativity and the blacksmith's forge, their graceful yet powerful presence is individually fashioned by hand, to ensure each has its own personal character and finish.

For people who prefer elegance to be exceptional, not the norm.

"Inventive Beauty for Creative Living."

"A place of quiet contemplation

The Ostara swing in copper

The Ostara swing with stand

away from busy lives."

The Mypod swing

“Elegant shapes  
encircle you in your  
own private hideaway.”

The Lily swing in copper

"Fairy tale shapes with a function."

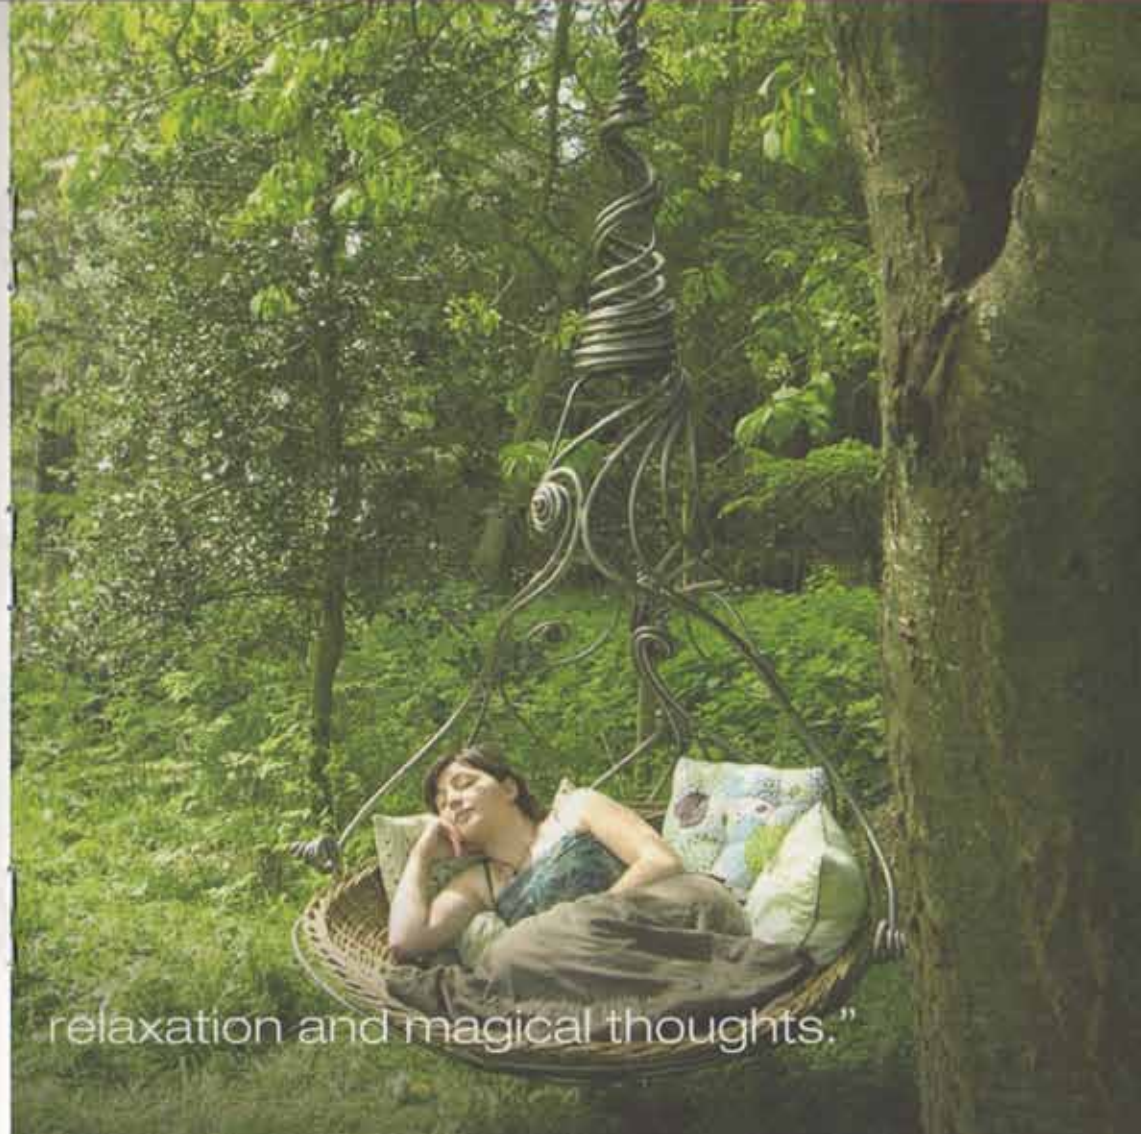

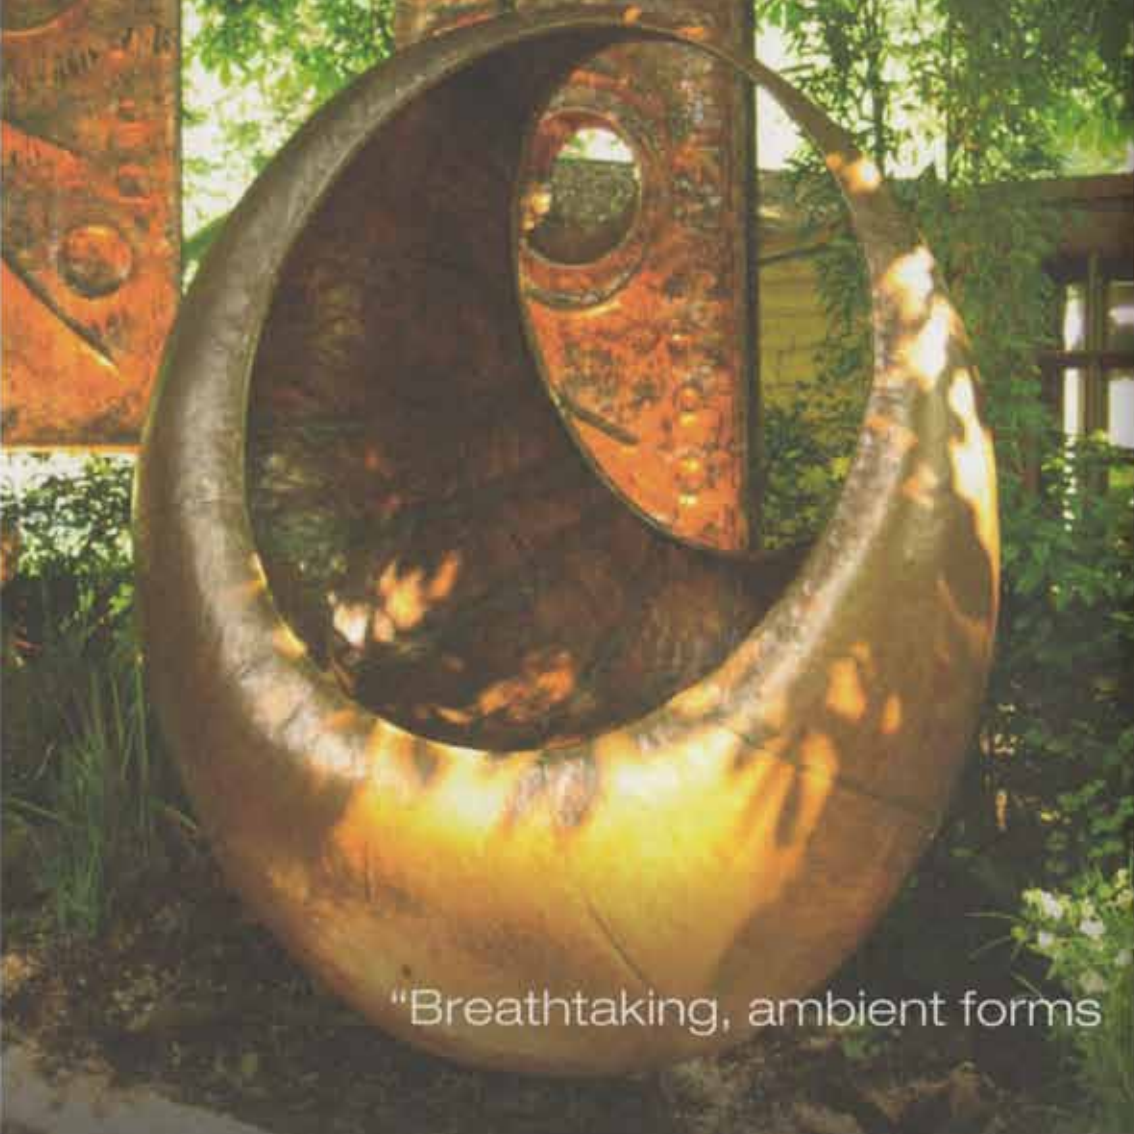

The Jasmin swing in mild steel

"Curl up, let go and drift into a place of deep

relaxation and magical thoughts."

"Breathtaking, ambient forms

The Moon swing in copper or stainless steel

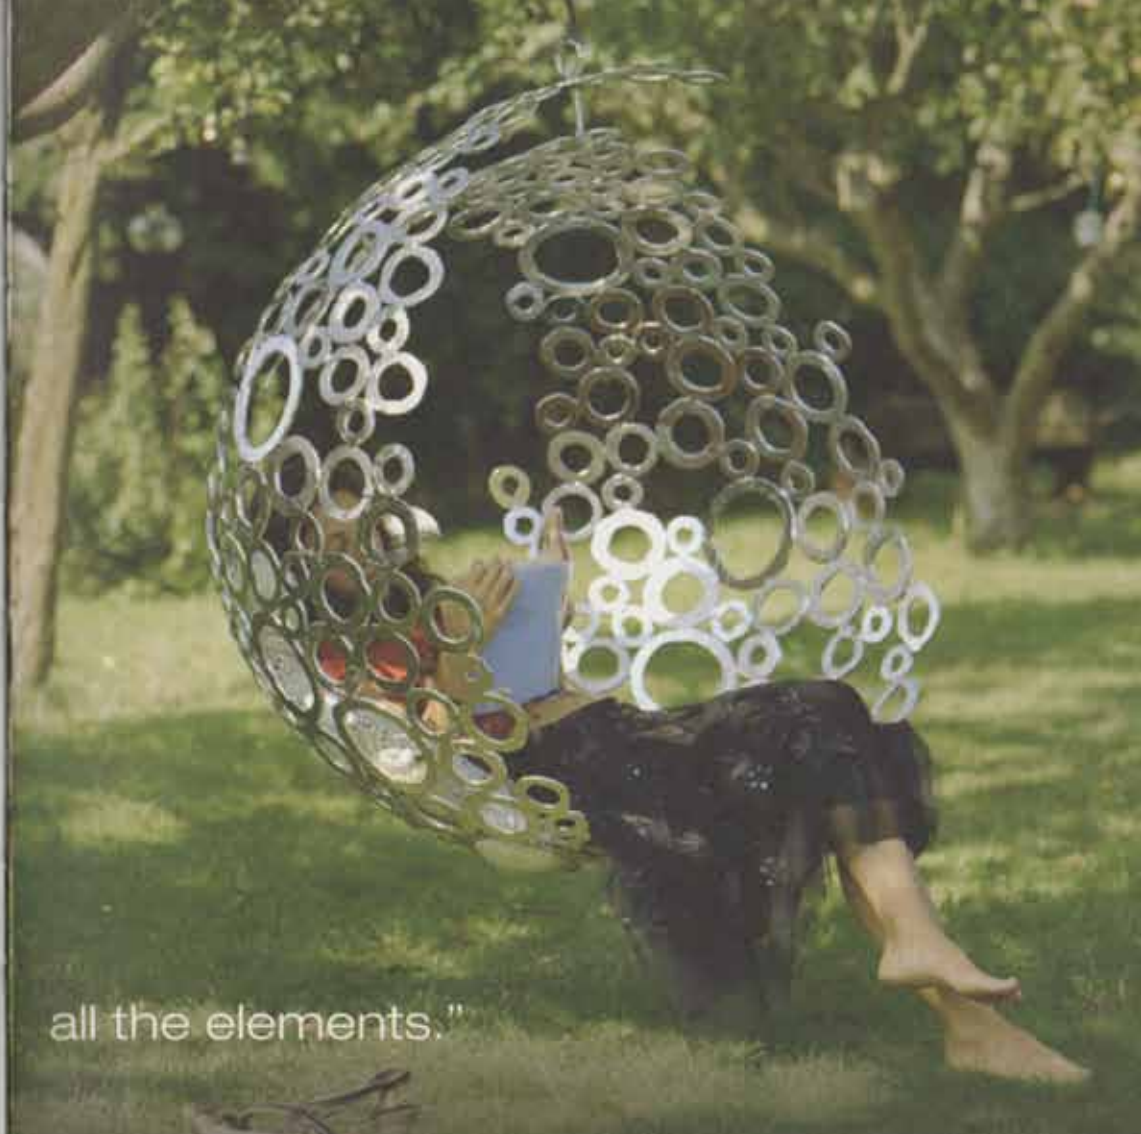

to cradle your very being."

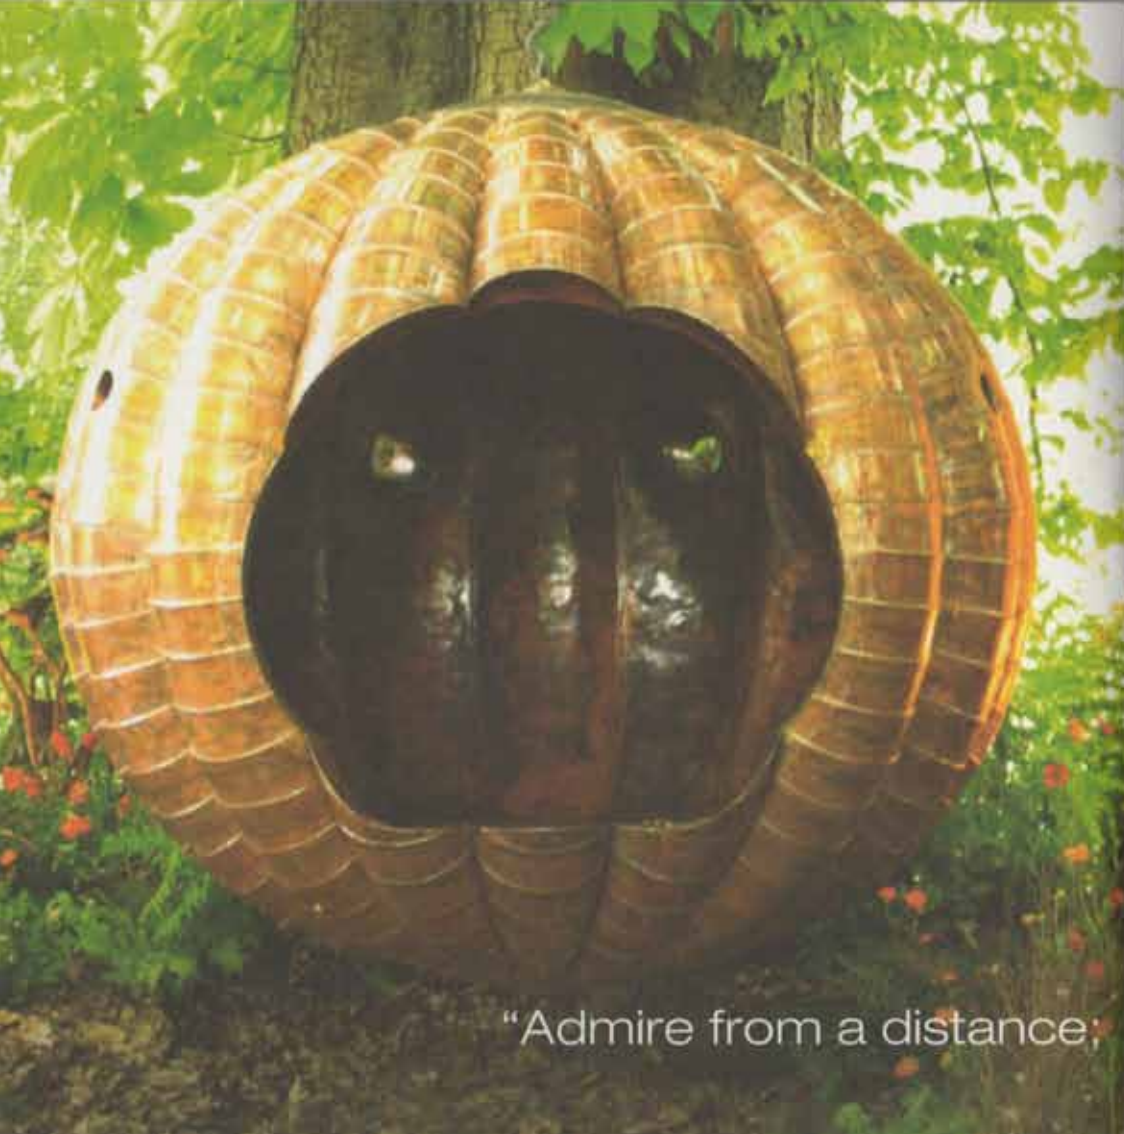

The Bubble swing in stainless steel

"Pure simplicity that works with

all the elements."

“Admire from a distance;

The Pumpkin swing in copper with integral light, candle holders and secret music box.

cherish from within.”

"Humans need fantasy to be human."

Stephen Myburgh

Stephen Myburgh's vision of functional metal work that people can interact with has been borne out in fantastic yet functional sculptures, enjoyed today by an exclusive, worldwide clientele.
